Supply Chain Sustainability School – Infrastructure School launch event

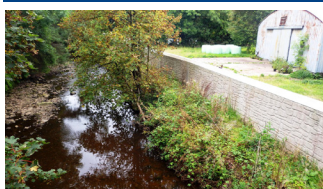

The [Supply Chain Sustainability School](#) is a multi award winning online training facility that represents a common approach to addressing sustainability within our supply chains. CEEQUAL is proud to be a partner to the School's new Infrastructure Group - a school dedicated entirely to infrastructure supply chains - and to be a member of the Infrastructure Leadership Group overseeing this exciting new development.

The launch of the School's Infrastructure initiative is on Thursday 26 February at the Ricoh Arena in Coventry starting at 09.30 and CEEQUAL e-news recipients are invited to attend. The event will be hosted by directors and senior staff from the School's partners in this project. There is no cost to attend but spaces are limited.

To guarantee your place please [register by clicking here](#). Our Chief executive, Roger Venables, who is speaking on the links between sustainability and infrastructure, looks forward to seeing some of you there.

In addition to CEEQUAL, the School's industry partners include National Grid, Morgan Sindall, Sir Robert McAlpine, Kier, Carillion, Balfour Beatty, Laing O'Rourke, BAM Nuttall, VINCI, Lafarge Tarmac, Galliford Try and Skanska
