# CEEQUAL NEWS

## March 2015

### Good Afternoon Support

Welcome to this latest edition of the CEEQUAL newsletter.

- [An update on CEEQUAL for international projects](#)
- [Assessor training courses](#)
- [Supply Chain Sustainability School](#)
- [Recent case studies](#)

### CEEQUAL's growing use on international projects

It has been an exciting start to the year for CEEQUAL at home and internationally.

International use is growing. A number of activities have been held in Hong Kong, Dubai and Stockholm over the last three months, including training courses in all three cities, award presentations and various meetings with existing and prospective users. With all of this activity we thought it might be an appropriate time to feedback on the progress of CEEQUAL on international projects and outline future plans.

Following the 2011 launch, uptake of the International Edition of the CEEQUAL Assessment Manual for Projects has been steadily growing. To date 25 Assessments are in progress or have already been completed. In response to a number of enquiries relating to international CEEQUAL assessments from already-trained CEEQUAL Assessors, we will be launching an International E-Learning module to allow UK-trained Project Assessors to also assess projects using the International Edition of the Assessment Manual. We anticipate this will be ready by the end of April and will let Assessors know nearer the time.

The team behind the Demolition of Wan Chai West Preliminary Treatment Works were one of four CEEQUAL awards presented in Hong Kong.

A key feature of CEEQUAL is the weighting of the question scores. With CEEQUAL International, adoption of the established UK & Ireland weightings and scores is inappropriate in light of differences in climatic conditions and/or cultural influences. A project team using

CEEQUAL International therefore needs to undertake a weighting exercise specific to the locale of the project, or work with others in the area and CEEQUAL to create a set of weightings for their specific country or region.

In Hong Kong, a weightings exercise was completed in 2013 and led to an International Manual with Hong Kong-weighted scores, which is now in full use there. In addition, CEEQUAL led weightings surveys are under way in Sweden and other Nordic Countries and will be started shortly for the Gulf States Region.

In Sweden, to support the growing number of projects adopting CEEQUAL, and with support from Sweden Green Building Council (SGBC) and other local supporters of SGBC, we recently launched a Swedish translated version of the International Edition of the Version 5 Assessment Manual for Projects. Roger Venables also spoke on CEEQUAL's positive influence on projects in Sweden at the recent '[Anläggningsdagen](#)' conference, and we will be visiting again in May to deliver more training in Stockholm. So far, Swedish users have actively decided to use the UK weightings on the basis of similar cultures and environment (and similar latitudes to northern Scotland), pending a wide-ranging weightings exercise that is now under way.

If you have any questions about the International Edition of the Assessment Manual for Projects, or its use then please contact [Melanie Manton](#) or [William Gates](#).

## Training Courses

CEEQUAL has a full schedule of training courses throughout spring and summer. To reserve a place on any of our upcoming training courses please download the relevant booking form using the appropriate link in the table below and send the completed form to [Sarah Macpherson](#). Please pass these dates onto colleagues who might be interested in becoming CEEQUAL Assessors.

<b>Training Course</b>	<b>Date</b>	<b>Location</b>
<a href="#">Project Assessor</a>	<a href="#">29 - 30 April 2015</a>	<a href="#">Bristol</a>
<a href="#">Project Assessor</a>	<a href="#">19 - 20 May 2015</a>	<a href="#">Glasgow</a>
<a href="#">Term Contracts Assessor</a>	<a href="#">21 May 2015</a>	<a href="#">Glasgow</a>
<a href="#">Project Assessor</a>	<a href="#">27 - 28 May 2015</a>	<a href="#">Stockholm</a>
<a href="#">Project Assessor</a>	<a href="#">10 - 11 June 2015</a>	<a href="#">Belfast</a>
<a href="#">Project Assessor</a>	<a href="#">14 - 15 July 2015</a>	<a href="#">Manchester</a>

Normally, Term Contracts Assessor Training Courses are held on demand. However, we have fixed the above Term Contracts Extension Course in Glasgow for Assessors already trained on CEEQUAL for Projects and to pick up on the likely use of CEEQUAL for Term Contracts there. If that date is not suitable for you or you need a full two-day Term Contracts Course, Please let [Melanie Manton](#) know. We will then work to arrange a course as soon as we have a minimum

of six people interested.

## Supply Chain Sustainability School

Over the last few months, we have been working with, and became a Knowledge Partner of, the Supply Chain Sustainability School (SCSS) Infrastructure Leadership Group, to support the School in setting up a programme dedicated to the infrastructure sector. We were delighted to support and attend the launch of the Infrastructure School on February 26th. Further updates can be found via the [SCSS Website](#) and [Twitter page](#).

Roger Venables reinforcing the importance of collaboration in delivering sustainable solutions at the infrastructure launch event.

Users of the SCSS website will also find a CEEQUAL E-learning module, and CEEQUAL's Philip Charles will be delivering a '[Getting to grips with CEEQUAL](#)' half day workshop on April 23rd.
